TEC MWT2400

LET ROWPU CLEAN ANY WATER

- ✓ 57.600 liters potable water per day
- ✓ Easy set up and usage

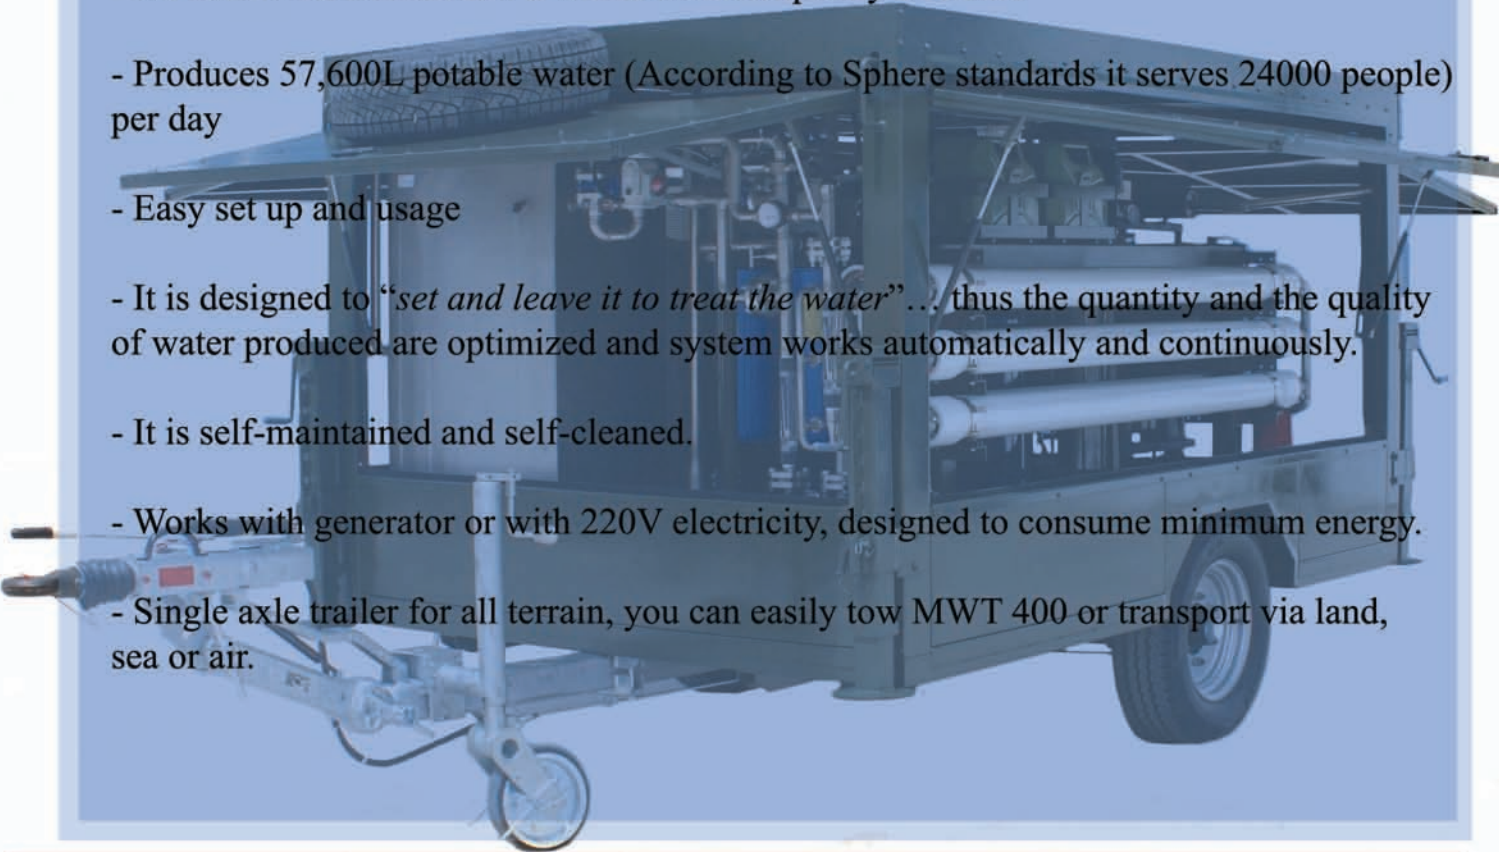

TECHNICAL DATA

Capacity:	2400 lt/hr
Inlet water:	7000 ppm
Efficiency:	90-99%
Energy consumption:	8,5kW/hr
Total weight:	3940 kg (full loaded)
Length:	4463 mm
Width:	2050 mm
Height:	2103 mm

MWT 2400 is the fastest way to provide safe, healthy and adequate water from any water source available in all climates and all terrain.

- No chemicals needed and it works uninterruptedly 24 hours
- Produces 57,600L potable water (According to Sphere standards it serves 24000 people) per day
- Easy set up and usage
- It is designed to “*set and leave it to treat the water*”... thus the quantity and the quality of water produced are optimized and system works automatically and continuously.
- It is self-maintained and self-cleaned.
- Works with generator or with 220V electricity, designed to consume minimum energy.
- Single axle trailer for all terrain, you can easily tow MWT 400 or transport via land, sea or air.
