

Potable Water
Supplying

**MOBILE REVERSE OSMOSIS WATER
PURIFICATION SYSTEMS
TEC MWT500**

LET ROWPU CLEAN ANY WATER

- 10.000 liters potable water per day
- Easy set up in 15 min. by only one person

TECHNICAL DATA

Capacity:	500 lt/hr
Inlet water:	3500 ppm
Efficiency:	90-99%
Energy consumption:	3,2 kW/hr
Total weight:	1200 kg
Length:	352 cm
Width:	210 cm
Height:	210 cm

MWT 500 is the fastest way to provide safe, healthy and adequate water from any water source available in all climates and all terrain.

- Any surface and underground water even biological and chemical waste water can be purified

-No chemicals needed and it works uninterruptedly 24 hours

-Produces 10,000L potable water (According to SPHERE standards it serves 4000 people) per day

-Easy set up in 15 minutes by only one person

-It is designed to “set and leave it to treat the water” ... thus the quantity and the quality of water produced are optimized and system works automatically

-Continuously. It is self-maintained and self-cleaned.

-Works with generator or with 220V electricity, designed to consume minimum energy.

-Single axle trailer for all terrain, you can easily tow MWT 500 or transport via land, sea or air.
